

FOR IMMEDIATE RELEASE:

Focusyl aims to help turn Kristen Stewart's focus from her indiscretions off camera to her performance on camera.

Toronto, Canada – Month, Day, 2012 – Today, while Kristen Stewart of Twilight movie fame was in Toronto for the Film Festival, Psynex Pharmaceuticals shipped her a complimentary box of its all-natural, focus-enhancing supplement, Focusyl.

"In light of her recent admitted affair and the negative press therein," said Mike Buckley, CEO of Psynex Pharmaceuticals, "I feel Ms. Stewart will benefit greatly from Focusyl's ability to increase oxygen levels in her brain. It will make her capable of once again focusing on her prolific acting career."

About Focusyl

Focusyl is an all-natural supplement that provides an immediate increase in focus and mental performance by rebalancing neurotransmitter levels and increasing oxygen and nutrient delivery in the brain. Focusyl helps to control symptoms including, but not limited to: boredom, attention deficiency, fatigue, stress, headaches, mood swings and aggression.

About Psynex Pharmaceuticals

Psynex Pharmaceuticals is a Toronto, Canada based healthcare company focused on developing mental fitness supplements that improve brain function, and medications that inhibit the spread of viral, bacterial, and fungal infections.
