

INVITATION DOOR

Is your home an open invitation?

The Background

2015 saw a 10.5 percent increase in incidents of thefts, burglaries and robberies in Thailand. In many of the burglary cases, it's often the use of basic locking systems that make is easy for burglars and are to blame.

The Idea

We'll replace the doors in places where safety is expected (toilets and changing rooms) with bamboo blinds that resemble doors. Through this installation, consumers will be able to understand better the benefit of having Hafele Electronic Lock while being reminded of something many of us often take for granted-the importance of home security.

Installation
bamboo
blinds
