

Lung cancer kills more American women every year than breast and cervical cancer combined. That's why we will remain dedicated to building a world where young people reject tobacco and anyone can quit. For more information, visit us at www.americanlegacy.org.

Legacy
American Legacy Foundation[®]

Studies show that girls may develop symptoms of nicotine dependence more quickly than boys. That's why we are dedicated to building a world where young people reject tobacco and anyone can quit. For more information, visit our website at www.americanlegacy.org.
