

IT COULD
BE TRUE

That psychotic ex-girlfriends
are glazed with super glue
which makes them stick around
when the relationship is through
And stare through the WINDOW
when you're having a poo.

**IT COULD
SO BE TRUE**

That boy band songs
are coated in super glue
which makes them stick in your head
when you don't want them to
And hum them in the office
So everyone laughs at you...

It could
So be true

That hippies used to sniff Super glue
which is why they're stuck in the 60's
without a clue. And still waiting for
the "messenger" from planet M3333.
