Rudolph S. Gregorio
Senior Sales Representative
Sales and Marketing Department

Dear Rudolph,

We are hereby terminating your employment at Endeavors Corp. effective immediately, for sexually harassing 6 fellow employees during the company's anniversary party held on August 17, 2006. As the entire company was witness to your actions, it is useless to appeal this decision.

Be warned that if you file a complaint of unjust termination, we will be forced to pursue our own sexual harassment charges against you. Please vacate the office premises by 6 P.M. today or security personnel will escort you out.

Sincerely,

Susan Capistrano
Vice President of Human Resources
Endeavors Corp.

I hereby acknowledge receipt:

FUJI XEROX
MAKE ANY DOCUMENT LOOK GOOD. No. (63) 700-090

MAKE ANY DOCUMENT LOOK GOOD.

BRIEF: To make business people realize just how good Fuji Xerox printing is compared to their current brand of printer.

ISSUE: Unlike graphic intensive businesses, our targets mainly dealt with text-based documents, making it difficult for them to perceive great differences between Fuji Xerox and their current printer.

SOLUTION: Exaggerate the benefit. Fuji Xerox printers are so good, they can make the worst documents look good. Enlarged letters were proudly framed and displayed throughout the business district. Upon reading the document, people realized that they were actually letters of warning, rejection and termination. The line summed up the idea: Make any document look good.

Dear Mr. De Guzman,

We regret to inform you that the Department of Liberal Arts has again denied your application to the Northline Academy for school year 2006-2007. As was the case in the past two years, your entrance exam results were well below the passing mark, despite being given the exact same test.

It is with a heavy heart that we turn away willing applicants with a letter such as this. So hopefully, this is the last one we send you.

Thanks once again for your interest in Northline. But perhaps, it is time to consider other educational options.
