Derren Brown – The Events

Seems nothing like quite what it is

This is the man who survived live Russian Roulette. Who beat 12 chess Grand Masters at their own game. Who seemingly raised the dead in a live séance. Starting tonight Derren Brown is back with a brand new series. The Events are made up of four spectacular stunts, each a unique blend of magic, misdirection and illusion.

How to Win the Lottery – LIVE Tonight 10.35pm

He's controlled our minds, misdirected our thoughts and manipulated our behaviour. Now Derren Brown takes on Chance itself when he predicts the National Lottery. It's live, so anything might happen. Then on Friday night at 9pm, Derren tells us how he did it and how you can try it too.

How to Control the Nation – Friday 18th September 9pm

Derren Brown reaches out beyond the screen into your very mind – using his mysterious powers of suggestion to glue you to your sofa. But is it mind control or just all in your head? You'll be able to phone Derren on the night to talk about your experience.

How to Be a Psychic Spy – Friday 25th September 9pm

The CIA spent millions of dollars in the 1960s on research into the principle of remote viewing – the ability to see and describe an object that is hidden from view. With the nation's help Derren Brown puts this theory to the test on a grand scale.

How to Beat a Casino – Friday 2nd October 9pm

In this controversial and ambitious final Event, Derren demonstrates how to beat the house at roulette. To end the show, he'll also put a member of the public's savings at stake and will speak live to the unsuspecting viewer. It could be you!
